DESCRIPTION

- The Potters Lane units were constructed in the late 1970s and consist of 17 units in two outward facing terraces with loading off a spine road leading to loading canopies down the centre of the two terraces.
- Both terraces have car parking to the front office elevations.
- Units 37-44 are larger with an eaves height of approximately 5.40 metres. These units also benefit from part first floor space utilised as office accommodation.
- The buildings are steel portal frame construction with vertically profiled steel sheet cladding. The roofs of both terraces were overclad in 2010 at the cost of the landlord.
- All units benefit from 3-phase power and other main services. The units also benefit from heating and lighting to the office areas. Loading to the units is via roller shutter doors to the rear.
